A NATION'S ONE SECT.

Bishop Andrews, in a Dedication, Predicts Catholic Absorption

BY THE PUBLIC SCHOOL MEDIUM.

The Splendid New M. E. Church in the West End Dedicated.

SEVERAL VERY IMPRESSIVE SERVICES

It was a beautiful early spring morning and this may in a measure have accounted for the large attendance at the dedicatory services of the West End M. E. Church, on South Main street. The church is a stone structure with a large auditorium and Sunday school annex. These were thrown into one room and every seat was occupied. The uterior is very pretty, and its beauty was heightened by the addition of pots of plants

and jars of flowers placed about the altar. The services were commenced by the choir rendering an anthem. The usual devotional exercises followed. Bishop E. G. Andrews delivered a sermon on the growth of the church. His remarks were interesting, and some of his views were rather startling, especially those on Catholicism.

A report of it follows: Has ever progress been more steady than that which has marked the advance of Chris-tianity? Great nations have come to call themselves Christians. We have Christian art, Christian morality and Christian love. Such facts as these have in themselves the potency of a mighty revolution. Yet there are men who ay although Christianity has had such a won-derful advancement, that some system will be adopted which will adapt itself better to the wants and advanced ideas of man, and Christianity will be relocated to the past.

EXTREMES TO BE AVOIDED. We must not be too optimistic in our views, nor too pessimistic. Both arise from the temperament of the man. I find it to be the case that the man who is pessimistic in the church is usually the man who has the most cause to

that the man who is pessimistic in the church is usually the man who has the most cause to lament his experience.

Within a century the growth of this country has increased from 4,000,000 to probably 55,000,000—a people who are charged with electrical forces which quiver and move under the touch of Christianity. In less than a century a new island-continent has been added to Christianity. In my boyhood days I often read of convicts being transported to Botany Bay. The discovery of gold in Australia changed all this, and we may expect the growth of another great Christian continent.

More than a century ago, when George Washington was on the ill-starred Braddock expedition, there was added, partially for good reasons and partly for bad, a vast domain in the Mediterranean basin, of 250,000,000 people, which as slowly becoming as grand as it ever was under the sway of the Roman Emperors.

Japan has adopted the rule of dating its chronological events from the birth of Christ, as we do. This is another step in advance.

Again, we have the growth of Russia from a small country to the vast empires.

At the time of the Reformation the guns of the Turks, with their Mohammedan religion, were thundering at the gates of Vienna, while oday Turkey is known as the "Sick Man of Europe," and is only kept alive because Europe's Western powers do not know what to do with its effects should it die.

CLOUDS HAVE ROLLED AWAY.

CLOUDS HAVE ROLLED AWAY.

century age portentous clouds hung above the horizon, and it was feared that the barparism would crush civilization. To-day the clouds are dispelled, and we only fear that the Christian nation will not act honestly toward weaker nations and thus call down the wrath

weaker nations and thus call down the wrath of God upon them.

This fight between Christianity and its adversaries is an old one. It is only a part of the early experience of the growth of the church. From the beginning Christianity has had a bitter conflict. The modern arguments against the church to-day are only new forms of attack by an old enemy.

Bishop Andrews then reviewed the arguments of the philosophers of the past century, and pointed out how they are now gradually declining and new ideas taking their places, which will in turn rise and decline as their predecessors. He begged that no Christian ministers would decry the study of science, as it would in the end be found that Christianity and science will march side by side. Continuing, he said:

There is a vast amount of infidelity, and a vast amount of sin; but I believe that God's sun never shone on a better day in America than it does to-day. The growth of the Christian church within the past 100 years has been tian church within the past 100 years has been wonderful.
The branches of Christendoin are: First, the Greek church. In this religion there is a conjunction of State and religion, which is always detrimental to Christianity. Second, in the Roman church, making a distinction between the papal people and the rulers of the church. I can see but little hope for the power of the latter. These mandates are each year more and more disoleyed. The old doctrine of the infallibility of the Pope and the immaculate conception, once so firmly believed, is

NOW BEING DOUBTED.

NOW BEING DOUBTED, nd its upholders are scoffed. The former have shaken off their bonds, and to-day Protestants may preach the word in Italy and Spain, which but a few years ago would have been severely but a few years ago would have been severely punished. This has happened in our day. Many more incidents similar to the few I have mentioned could be related.

In America we have great reason for vigi-lance, and possibly in the end sacrifice; but to-day I have but little to fear. This Roman obserbly beging continually and unpassurably

day I have but little to fear. This Roman church is losing continually and unmeasurably. If they continue to keep their children in our public schools, even if they are not taught Protestantism, the children cannot help but breaths the air of America's freedom, and cannot help but become Americaus; and if so, they will become Protestants.

The immigration which is now pouring into our gateways consists of many Protestants. If we but take care of ourselves, and continue our labors, it cannot be otherwise than that America must and will become entirely a Protestant country.

Stant country.

The speaker then reviewed the growth of the Protestant church, and the advance-ment of more Christ-like ideas, and closed with a very optimistic prediction as to the future greatness of this church and Chris-

Mr. George B. Johnston, Secretary of the Board of Trustees, read a statement of the expenditures on this church. Its total cost was \$42,890. Of this amount \$25,890 had been paid, leaving a balance due of \$17,000. This amount was divided into 1,700 shares of \$10 each, payable in two years on monthly installments. Shares may be purchased from 1 to 500. Certificates of stock will be

issued to subscribers by the Board of Trus-AN INDEFATIGABLE PASTOR. Much credit is due Rev. H. C. Beacom, pastor of the church, through whose individnal efforts much of the necessary money was

collected and the structure erected.

A platform meeting was held in the afternoon. Addresses were made by Rev. J. U.
Miles, presiding elder of the Pittsburg district; B. T. Miller, D. D.; Bishop Andrews and H. L. Chaplain, D. D. With the exception of Bishop Andrews the speakers were former pastors of the church. Their remarks were of a congratulatory nature. Efforts were also made by them in their remarks to obtain subscriptions.

C. N. Smith, D.D., editor of the Pittsburg Christian Advocate, delivered an address in the evening. The solemn dedicatory ser-vices of the Methodist Church were conducted by Bishop Andrews at this session, and the church was formally given over to worship of God.

During the day almost \$10,000 was raised by subscription, leaving the actual debt of the church now about \$7,000.

FANATICISM IN CHURCH.

Its Work Has Done More Harm Than Good

Among Christians. The talk of the Rev. E. P. Cowan, of the Third Church, Sixth avenue, upon "Fanaticism," dwelt entirely upon the zealous, the enthusiast and the fanatic. The last named, he said, did more harm than good, for he had passed the limit of sound reasoning, and was urged on by blind insanity.

He touched upon the fanatic in history, and closed with an eloquent plea for the real earnest Christian. real earnest Christian.

An Influential Guest. In catching public interest Deceit is seldom winner; You'll have conviction for your guest When there are facts for dinner.

If your anxiety is caused by sickness it can set at rest only by such facts as these: Set at rest only by such facts as these:

Hinton, Smithville, Ga.

Drs. Starkey & Palen's office records show over 45,000 different cases in which their Compound Oxygen Treatment has been used by physicians in their practice and by invalids independently in cases of consumption, bronchitis, asthma, catarrh, dyspepsia, nervous prostration, theumatism, neuralgia, and all complaints of a chronic nature. Their brochure of 200 pages will be forwarded free of charge to any one addressing Drs. Starkey & Palen, 1829 Arch street, Philadelphia, Pa.

It hardly seems possible that the money paid in one month for a 10-cent article could, if pennies were used in payment, weigh 100 tons. Yet one of our bright schoolboys has figured that this is true of Diamond Dyes. To judge from the stocks of our dealers in dye stuffs, Diamond Dyes own the field of package dyes, and are a complete success. Of course they have imitators. "Nothing is a success until mitated." But no one wants to risk a counterfeit when the genuine can be obtained at the same price. Three new colors have lately been added to the list of Diamond Dyes: Fast stocking black, Turkey red for cotton and brown for cotton. The manufacturers, Wells, Richardson & Cc., Burlington, Vt., will send colored samples of these new dyes, with book of directions, to any address, free of charge. These additions seem to have made the line so complete that any shade can be matched with some color of Diamond Dyes. The beautiful sample book of shaded colors, lately sent to all dealers in dyes, will delight the eye of any lady. "It's easy to dye with Diamond Dyes." is so absolutely true that home dyeing is no longer a difficult and disagreeable task. Almanacs, with their hints as to proper times for different work, tell us that now is the time for spring dyeing. This, together with the thought of that 100 tons of money, leads us to ask what schoolboy can figure how many thousands of ladies are now saying that this is the time to use Diamond Dyes.

Our stock of new figured India silks is particularly attractive both in novelty of designs and colorings as well as in the ex-tent of assortment. We specially mention tent of assortment. We specially mention our 27 in. 75c grade, the actual value of which is \$1 25 pr. yd.
